

STROKE SUPPORT GROUP

Meetings take place Thursday from 11:00 a.m. - Noon

Baptist Health-Fort Smith and Baptist Health Neuroscience Center-Fort Smith will host free in-person or online support group meetings for stroke survivors and their caregivers monthly. Each session will offer an educational topic from a local expert in healthcare, opportunities to ask questions and share tips and success stories. The goal of this support group is to enable patients and their support systems to surround themselves with other people who understand what they are going through.
